Dear Parents,

On April 7, 2017, your student has the opportunity to visit the Anatomy/Physiology Laboratory at Colorado State University as part of the Colorado Science and Engineering Fair. Masters and undergraduate students from the Department of Biomedical Sciences will lead the presentation. Students will be able to see and handle preserved body organs (heart, lungs, liver, brain, etc.) as well as interact with fully dissected human and/or animal cadavers. Students may participate in whatever capacity they are comfortable. By signing below, I, the parent, give my child _____ (student's name) permission to participate in this activity and agree with the following statements:

- My student will behave in a respectful manner or be asked to leave.
- No one my student is related to has donated their body to the Colorado State Anatomical Board in the past 3 years.
- There will be ABSOTLUTELY NO photography of dissected cadavers, isolated organs or bones during the presentation.
